DILX-SW-MOD-BL- Black Switch Module

Black Switch Module

## DESCRIPTION

Switch module for use with the range of DIGILUX backbox box.

Allows switchcontrol of a single circuit connected to the control backbox.

LINE DRAWING

DETAILS

Finish	Matt
Colour	Black
Depth	22.8
Height	42.1
Width	17
IP Rating	IP20
Operating Temperature Range	-10°C to 40°C
Operating Humidity	20%-85% RH
IK Rating	IK04

TECHNICAL INFORMATION

Input Voltage Range	100-240Vac
Input Frequency Range	50/60Hz
Maximum Load Wattage	200W
Minimum Load Wattage	<1W

NOTES

To only be used with the Orcomm range of DIGILUX control boxes.

Minimum loading is dependent on light sources used.

Do not mix light sources on the same circuit.

Do not mix dimmable and non-dimmable light sources together.

If Load is exceeds 150w a contactor must be used.
