Quick Guide – Doorbell and Relay 1 on ORC-HAGW

This document is to assist on how to connect a doorbell or other device to Relay 1 on the ORC-HAGW

Step 1:

Ensure you have minimum of 3.3.0 Touch Screen Firmware.

Step 2:

The system is using ORC-NET protocol.

Step 3:

Wire the Additional Device into relay 1

Enter into the **"More"** option

Hold and Touch the screen in Top right Corner for **Hidden Menu**

Enter into the **"Advanced"** option

Enter password **"123456"** then **"OK"**

Enter into the **"Security"** option

Alarm IO = 1 "Doorbell" Change from **"N/A"** to **"1"**
